*"He [Rabbi Margalit] is a truly magnetic speaker, capturing our hearts and minds with his accessible style and deep wisdom."*

—Rabbi Daniel Berman, Temple Reyim, Newton, MA

**Organic Torah** works to bring into the mainstream an organic mode of thinking, being and acting. We shine a light on the wisdom in Jewish texts and practices, while integrating with holistic and ecological thinking. This integration uniquely counters modern alienation, both from Jewish wisdom and from each other. We thus engage young adults, change agents, and all learners to bring ancient wisdom to face environmental, social, and spiritual challenges and bring about a healthier, more just and joyous world.

Rabbi Margalit can come as a guest speaker, to lead a text study or workshop, or to facilitate a ritual or retreat. *We would also be happy to customize something else for your setting.*
